TMEIC GE Names Stephan Bondy Industry Segment Leader of Houston Office

Roanoke, Va. (July 26, 2010) – TMEIC GE announces it has named Stephan Bondy Industry Segment Leader – Oil & Gas of its newly opened sales and engineering office in Houston, Texas.

TMEIC GE is an internationally-based integrator of drives and automation systems. The Houston office will further support TMEIC GE's customers in the petroleum, oil & gas, and energy industries.

Bondy will be responsible for TMEIC GE's sales strategy for the Oil & Gas market, and he will also lead and manage the day-to-day activities for this industry segment.

“We're pleased that Stephan Bondy will head our team of sales and application engineers in Houston,” says Adrian D. Thomas, TMEIC GE's North American Sales Leader. “Stephan has the sales experience and in-depth knowledge of TMEIC GE's strategic vision that will support the needs of our customers in this global center,” he adds.

Bondy is a Mechanical Engineering graduate of the University of Connecticut. He began his career with General Electric in 1987, where he held several positions as electric drives Systems Engineer and Project Manager with GE Marine Systems. He went on to become an Account Manager for major Oil & Gas companies in Houston.

The Houston office is one more example of TMEIC GE's commitment to supply high capacity drive systems technology to the Oil and Gas market place. The office team will offer TMEIC GE's technical and application expertise to Houston's large base of upstream and downstream Oil and Gas companies, engineering firms and equipment manufacturers.

With offices on five continents, TMEIC GE designs and develops advanced automation and drive systems. The company has major operations in Japan, China, Singapore, India, the United Kingdom, Germany, Italy, and the United States.
