

Message for the 15th anniversary since the foundation of TMEIC

Koichi Orito
In charge of Energy & Industrial Systems
Mitsubishi Electric Corporation

We would like to extend our congratulations to TMEIC upon reaching its 15-year milestone.

The businesses taken over by TMEIC in the industrial field in October 2003 not only have a history and tradition but also special ties with Mitsubishi Electric, which will commemorate its centennial anniversary in 2020. TMEIC has strongly driven its respective businesses supporting global manufacturing over the past 15 years, in which it achieved significant growth by gaining a high reputation from customers around the world in its mainstay products, beginning with the power electronics field.

This accomplishment solely resulted from successive management and TMEIC and TMEIC Group company employees' mindset toward realizing innovation and growth. On our behalf, we truly respect everyone's endeavors. We have high expectations that TMEIC will continue to achieve further development as a global company based on its outstanding technological capability and products.

Finally, we would like to extend our deepest appreciation to everyone, including our customers, who have supported TMEIC throughout, and sincerely ask for your ongoing support and patronage going forward.

Koichi Orito
