
TMEIC Welcomes Charles R. Underwood, Inc. to its Value-Added Reseller Network

CRU brings TMEIC pumping solutions to municipalities in North and South Carolina and Virginia.

TMEIC Corporation (TMEIC) is proud to welcome Charles R. Underwood, Inc. (CRU) to our network. CRU specializes in high-capacity commercial, industrial, and irrigation wells and pumping systems, focusing on pumping solutions for the municipal, commercial, and agricultural markets of North Carolina, South Carolina, and Virginia.

CRU maintains a 75,000 square-foot, fully equipped fabrication and repair shop. In addition to pump repairs, the company also provides rebuild/repair services for a variety of water and wastewater equipment. In-house equipment ranges to accommodate the very small to very large machining needs.

"Charles R. Underwood, Inc. is excited to be partnering with TMEIC, the leader in Medium Voltage Drives," says Russell Underwood, President. "Our partnership with TMEIC will provide our customers with top-of-the-line equipment and world-class service."

TMEIC supports Water & Wastewater treatment systems with drive and motor products and process control solutions for use with raw water pumps, rapid mix motors, flocculation mixer motors, filter backwash pumps, coagulant chemical feed pumps, high services pumps, and more. As treatment plants continue to regulate flow to match demand, the result is better control of the chemical processes, less wear on mechanical equipment, and increased energy savings.

"TMEIC Corporation is very pleased to have C.R. Underwood join our Channel Partner Network. As a well-respected pumping system solutions provider, CRU mirrors the TMEIC commitment to providing quality products, technical expertise, and aftersales support," said Marty McDonough, TMEIC Channel Partner Manager. "We look forward to mutually growing our businesses in the Water & Wastewater markets."

Serving the market through pump OEMs, specifying engineers and contractors, TMEIC's team of experts bring a wealth of product and system experience to the water handling community.
