TMEIC Expands Houston Offices to New Location

Customer Support, Field Engineering Services Now Available for Houston and Gulf Area Oil & Gas Customers

Roanoke, Va. (Oct. 29, 2012) — TMEIC Corporation's Houston Branch moved into expanded office facilities in September. Located at 2901 Wilcrest Dr., Suite 210 Houston Tex., the new 5,000 square-foot office will provide space for expanded Customer Support and Field Engineering Services to serve Oil & Gas and Renewable Energy customers. As part of the move, TMEIC also plans to hire an additional 10 employees at the new Houston location.

This larger presence is another step in establishing the company's Houston Branch office as a full service location, offering convenient commissioning, preventive maintenance and emergency repair service for customers in the Houston and Gulf area.

TMEIC's Houston office supplies high capacity drive systems technology to the oil & gas marketplace. The office team provides TMEIC's technical and application expertise to Houston's large base of upstream and downstream oil & gas companies, engineering firms and equipment manufacturers.

With offices on five continents, TMEIC designs and develops advanced automation and drive systems. TMEIC and its subsidiaries have major operations in Japan, China, Singapore, India, the United Kingdom, Germany, Italy, and the United States.
