TMEIC Introduces Solar Ware® 100kW Inverter

**Roanoke, Va. (September 10, 2012)** – TMEIC Corporation in Roanoke, Va. introduces the new Solar Ware<sup>®</sup> 100 kW Inverter, approved for outdoor installation. The new inverter is the latest addition to TMEIC's portfolio of PV utility scale solar inverters for industrial markets. Built on decades of engineering experience with power electronics, Solar Ware<sup>®</sup> inverters offer the industry's most advanced grid management in an efficient, compact footprint.

The Solar Ware® 100kW inverter's unique features include:

- Fanless design, a new thermal solution offered by TMEIC's Proprietary Optimized Cooling System
- NEMA 3R Enclosure for outdoor installation
- Advanced Multilevel Inverter System
- Proprietary anti-islanding technology uses slip-mode frequency shift methodology

"The Solar Ware 100kW inverter offers customers TMEIC's quality and reliability in an inverter redesigned to eliminate the cooling fan, and meeting NEMA3R outdoor certification", says Donn Samsa, Director of Marketing, TMEIC. "It is the result of decades of research and development to create the most advanced inverters in the industry."

## About Toshiba Mitsubishi-Electric Industrial Systems Corporation (TMEIC)

Toshiba Mitsubishi-Electric Industrial Systems Corporation (TMEIC) was formed in 2003 from the merger of the industrial systems departments of Toshiba Corporation and Mitsubishi Electric Corporation. TMEIC manufactures and sells variable frequency drives, motors, and advanced automation systems for a range of industrial applications. We drive industry.

## The North American operation -

TMEIC Corporation, headquartered in Roanoke, VA, designs, develops and engineers advanced automation, large AC machines and variable frequency drive systems. TMEIC Corporation specializes in Metals, Material Handling, Oil & Gas, Mining, Testing and other industrial markets worldwide. We drive industry. www.tmeic.com
