

Message for the 15th anniversary since the foundation of TMEIC

Shinichiro Akiba
Representative Executive Officer and Corporate
Senior Executive Vice President of Toshiba

Congratulations on the 15th anniversary. I would like to extend my heartfelt congratulations and best wishes to you in gratitude for your unswerving commitment.

TMEIC was established by consolidating the industrial systems business of Toshiba Group and Mitsubishi Electric Group so as to take a leap forward to become the world's leading industrial system integrator. Since the foundation, TMEIC has endeavored to improve its management efficiency and launched a stream of new products, including control systems, power electronics systems, and motors, which are flagship products of the company. In addition, TMEIC has expanded its sales and manufacturing operations around the world, encompassing, amongst others, in North America, China, and India, while establishing supply chains in collaboration with Toshiba Group. As a result, TMEIC has steadily grown into a global player in the field of industrial systems.

TMEIC is a core of the social infrastructure business of Toshiba Group, which is one of the pillars of the Group's business. We will continue to grow together to contribute to the realization of a sustainable society with safety, security and reliability, both in Japan and abroad.

I would like to ask all customers, suppliers, and business partners for continued support and patronage.

Shinichiro Akiba

Representative Executive Officer and Corporate Senior Executive Vice President of
Toshiba Corporation

President and Chief Executive Officer of Toshiba Infrastructure Systems & Solutions
Corporation
